Figure 2 (A) Age-versus-depth curve for Bluff Lake short core based on a series of $^{210}$Pb dates. Dates were provided by Battelle Marine Sciences Laboratory, Sequim, Washington. (B) Age (calendar year BP)-versus-depth curve for Bluff Lake. (C) Age (calendar year BP)-versus-depth curve for Crater Lake. Uncalibrated $^{14}$C dates are plotted by depth. See Table 2 for age models applied to each curve.
